▶ WHAT IS IT ALL ABOUT?

NO NEED FOR CONSTANT EMAIL CHECKING

- ▶ no more waiting to sign-in, and no more manual placing orders on exchanges. Let your users have the possibility for Real-Time reaction to never miss an opportunity again. They simply connect your signals to our PalmaExecutor and start trading.

BECOME A PALMAEXECUTOR PARTNER AND ENABLE DIRECT EXECUTION OF YOUR SIGNALS&ALERTS.

- ▶ 100 digital asset exchanges with more than 5.000 trading pairs with advanced trade execution options (Stop Loss, Take Profit, Fix or Trail) are available. Users can start with no risk paper trading (demo mode) and later change to real-money winning strategy execution always with maker fees.

▶ BUSINESS PROPOSAL

WE COMPLEMENT YOUR PLATFORM'S
USABILITY AND SUPPORT YOUR
BUSINESS.

No start-up costs

No operational costs for the first year.

Increase your income

and customer satisfaction at the same time. Imagine the impact on the existing users - and attract new ones - when you upgrade your service with a unique execution service to enable, simplify, or speed up the whole process of trading.

PALMATRIX

Global digital solutions

UNIQUENESS

delivering every milestone with heart and passion

Palmatrix multi-exchange trade execution platform is a global digital, cutting edge software platform, a portfolio of services for a wide range of businesses in the crypto space and fintech industry. We have positioned ourselves among digital asset exchanges, charting companies, and information providers.

We are in close connection with universities, brokerage houses, and signal providers. Our flagship product PalmaExecutor is already connected with over 50.000 users.

We are an international team of more than 20 experienced and highly motivated specialists, managers, and executives. In the last 3 years, we established a network of prominent institutional partners such as Information providers, Brokerage houses, and Universities. We developed a versatile digital asset management platform that upgrades any Signal, Information, and Analysis platform.
